German Anti-Reds Battle  
Commies In Bloody Fighting

Berlin, April 29 (AP) — Several hundred Communist and anti-Communist German youths clashed in bloody street fighting this morning.

A number of Reds were hospitalized after the battle which was broken up by police. The fighting took place in the American sector, near the Soviet sector border.

The Communists claimed their opponents tried to break up their parade May Day meeting in the American-occupied borough of Tempelhof. The Communist press charged American military police inspired the disorders.

American authorities said no allied personnel was involved.

American public safety officers said the Communist Free German Youth organization had been given permission to hold a meeting. They said that scores of those attending the meeting came from the Russian sector and this "invasion" created resentment among the anti-Communists.

The ruckus stirred fears of further clashes Sunday when Communist and anti-Communist trade union federations plan to stage rival May Day celebrations. Each organization has accused the other of planning "provocations" Sunday.

Western Berlin's German police were ordered on full alert for the May Day week-end.

The Christian Democratic Union newspaper Der Tag said today the Communists have arrested a German priest and several Roman Catholic students at Warnemuende in Soviet-occupied Mecklenburg. The report was confirmed by a spokesman for the diocese of Berlin. Catholic officials said they had been unable to ascertain where the priest is confined or what the charges against him might be.

This was the third action against churches in Russian-occupied Eastern Germany reported here within a week.

# STATE AID ON SCHOOLS NEAR

Harrisburg, April 29 (P)—A new departure in educational aid—state grants for financing school construction—has the endorsement of the General Assembly.

Legislation sent to the governor would authorize payments to local school districts to help pay rentals to the public school building authority for new schools built on a time-payment plan.

The measure carries a \$500,000 appropriation to be shared in the same way schools are aided by the state for teachers' salaries, upkeep and transportation. However, aid would be given at only half the normal rate.

"It is the acceptance of a new principle in education in helping to meet the biggest single problem facing our schools," commented E. A. Quackenbush, director of school administration.

He said the Department of Public Instruction already has found that 90 per cent of the school districts seeking new school financing under the authority plan lack the tax income to pay the necessary rentals.

The aid measure and another authorizing school districts to levy additional taxes on real estate are expected to overcome the difficulty for many districts. In addition, the time for paying off projects has been extended from 30 to 40 years.

## DUROCHER IS "SUSPENDED"

Cincinnati, April 29 (P)—Leo Durocher, manager of the New York Giants, was suspended indefinitely today by Baseball Commissioner A. B. Chandler.

The suspension was the result of a disturbance following the game yesterday between Brooklyn and New York, when Durocher allegedly struck a fan.

Durocher was ordered to appear before the commissioner in Cincinnati May 3. "The commissioner is making a complete investigation of the case," Walter Mulberry, baseball secretary, said in announcing the suspension.

Durocher is accused by a Brooklyn fan of punching and kicking him yesterday at the Polo Grounds. It was the second time the fiery manager has been suspended by Chandler. He was set down for the entire 1947 season for conduct detrimental to baseball. At the time he was manager of the Brooklyn club.

## Bulgaria Protests Ousting Of Official

Sofia, Bulgaria, April 28 (P)—The Bulgarian government has protested a British decision to expel the third secretary of the Bulgarian legation in London. The British legation announced last night it had received a note to this effect.

The note contended expulsion of Bogomil Todorov would be a repressive measure against Bulgaria's action in declaring the British first secretary in Sofia, Denis Greenhill, persona non grata.

It added that Britain's decision was not justified, since no charges were made against Todorov. It said Greenhill was accused of "heavy crimes against the Bulgarian state." Bulgaria also called the British expulsion orders a "brutal act of unfriendliness against Bulgaria."

## STOCKS STEADY

# HOLY NAME UNIT HOLDS BANQUET

Less "hysteria" and a return to religion were recommended as solutions of the world's difficulties by the Very Rev. Paul D. Weaver, pastor of the Assumption of the Blessed Virgin Mary church, Lebanon, in a talk before 400 members of the Southern Regional Union of Holy Name Societies held at McSherrystown, Thursday night.

The Very Rev. Fr. Weaver, a native of New Oxford, served 24 years at Mt. Carmel before being transferred to Lebanon county, where he is dean of the Roman Catholic clergy of the county.

Lawrence J. Allen, president of the Southern Regional union, presided as toastmaster. The program opened with the entrance of a color guard of Boy Scouts from various parishes in the three-county area, York, Adams and Franklin, which comprises the region. The Rt. Rev. Msgr. Patrick F. McGee of McSherrystown gave the opening prayer and address of welcome. The Rt. Rev. Msgr. George J. Breckel, York, gave the blessing.

During the serving of the turkey banquet music was provided by Richard Willet on the vibra-harp and by the boys' glee club of Delone Catholic high school, directed by Harry C. Stenger. The Rev. Fr. Harold E. Keller, pastor of Conewago chapel, led in repeating the Holy Name loyalties and the closing prayer was given by the Rev. Cletus A. Hauck, New Freedom.

Officers of the union who were installed at the banquet include: spiritual director, the Rev. J. B. Weaver, Hanover; president, George D. Hemler, McSherrystown; vice president, Francis Hemler, Dallas; secretary, Robert J. Smith, Hanover; treasurer, John Sneeringer, Conewago chapel, and marshal, Andrew H. Dohm, York. Robert J. Lawrence was general chairman of the banquet committee.

## SPRAY LETTERS ARE SENT OUT

Adams county fruit growers, who expect to have the satisfaction of viewing the peak of the apple blossom display this week-end, were reminded today by County Agent M. T. Hartman that fruit culture is five per cent enjoyment of beauty and 95 per cent the hard work of putting on sprays, cultivation and the like.

Spray letters for peach and cherry went out from the county agent's office today with the peach letter calling for a shuck split spray—the time when shucks have cracked and pushed about one-eighth inch away from the base of the peach. It noted that most orchards are ready now for the spray. It also reports that curculio adults are emerging and that use of zinc sulfate and lime in the spray will help reduce bacterial leaf spot. Materials for the spray designed to control curculio, plant bugs, brown rot, bacterial leaf spot and scab include for each 10 gallons of spray seven pounds of zinc sulphate (Flake), eight pounds fresh spray lime, two pounds regular lead arsenate and two pounds 50 per cent wettable DDT, and wettable sulphur.

The wettable sulphur recommendation varies from 10 pounds flota-tion paste to six pounds 70 per cent sulphur paste. For the petal fall spray on cherry the county agent recommends two mixtures, with one calling for two gallons lime sulphur, three pounds fresh spray lime and two pounds of lead arsenate in 100 gallons of spray and the other formula being 2½ pounds of compound 341B, three pounds of fresh spray lime and two pounds of lead arsenate in 100 gallons of spray.

Leaf spot spores are mature, the letter notes and ready to infect the unfolded leaves during wet weather unless spray protection is given. The spray, to be applied as soon as 80 or 90 per cent of the petals are off, is designed to prevent cherry leaf spot, brown rot and help control curculio.

Ephrata, Pa., April 29 (P)—A printing press believed to be the first ever used in this country has been returned to its original site, the historic Ephrata Cloisters.

A number of years ago, the press was taken to Philadelphia and became the property of the Pennsylvania Historical society. Until recently it was on exhibit at the Franklin Institute in Philadelphia.

The press, which has been insured by Lloyds of London for \$50,000, in Colonial times turned out a number of publications, including one entitled "Martyrs Mirror," printed in German.

# SETTLEMENT OF GERMAN ISSUE GOAL OF YANKS

New York, April 29 (P)—Secretary of State Acheson pledged last night the United States will leave no stone unturned, if four-power talks with Russia are resumed, to work out a settlement on Germany that is fair to all.

He promised there will be no bargaining away of rights and security of the 45 million Germans in the western occupation zones, or of the rest of Europe.

Acheson, addressing the annual dinner of the American Newspaper Publishers association, emphasized that the way still is open for four-power agreement on a united Germany. Steps taken by the U. S., Britain and France to found the proposed west German republic "did not mean that we had abandoned hope of a solution which would be applicable to Germany as a whole," he said. "It did mean that this government was not prepared to wait indefinitely for four-power agreement" after seeing conquered Germany threatened with "chaos" by disagreements with the Russians, he continued.

West Germans, Secretary Acheson declared, "may rest assured that this government will agree to no solution for Germany into which the basic safeguards and benefits of the existing western German arrangements would not be absorbed. They may rest assured that until such a solution can be achieved, this government will continue to lend vigorous support to the development of the western German program."

Today's meeting was requested by Malik. This may mean the Soviet representative has received a written reply from Moscow to a request which Jessup made Wednesday for a formal declaration of Russia's position on lifting the blockade. However, a U. S. spokesman said he had no knowledge whether Malik had received a reply.

## Bill Clears Dispute Over State Lands

Harrisburg, April 29 (P)—Only the signature of Gov. James H. Duff is needed today for final approval of legislation designed to end a dispute of a ruling on the state Forests and Waters Department on the rental of cabins on state lands.

The bill, passed by both Houses would extend leases of cabin sites on forest lands from 10 to 50 years and provide that no lease could be cancelled by the state except for non-payment of rent or unless the site is needed for public improvements.

Owners of cabins erected on the sites would, in addition, be allowed to remove the structure at any time or within a year after the lease expires.

A ruling was made last year by M. F. Draemel, Forests and Water secretary, limited the leases of cabin sites to two 10-year periods. He said cabins built on the sites would become state property.

## PENN RELAYS OPENING TODAY

Philadelphia, April 29 (AP)—More than 3,000 spiked-shoe athletes from 500 schools and colleges converged on Franklin Field today for the opening of the University of Pennsylvania's 55th two-day relay carnival.

Before New York University toes the mark in defense of its mile relay at 5:40 p. m., tomorrow, champions will have been crowned in seven other baton and 11 individual events. In addition hundreds of other college, prep and high school runners will have sped around the cinder track in quest of the gold medals given to winners.

Track conditions promise to be ideal with the weather clear and cool.

New champions are sure to be crowned in four of the individual events and one of the championship relays. But the returning winners of 1948 face a stern test as each event is packed with top performers of the east with a good sprinkling of track and field aces from the mid-west and south, and beyond the border lands from Canada, Cuba and Puerto Rico.

Penn State, with a powerful array of distance runners, will defend titles in both the distance medley and four-mile relays. Michigan again is favored in the two-mile relay as is New York University in the mile with Reggie Pearman anchoring a speedy quartet.

## Sports Roundup

New York, April 29 — The four 1949 seniors of the University of Kentucky basketball team apparently didn't get enough action in two full seasons, with tournaments and a summer of Olympic basketball. Since they won the NCAA championship, Alex Groza, Wah Wah Jones, Ralph Beard and Co., with a few reinforcements, have been playing exhibitions around the state with rather devastating results. At the last report they had won 10 games, all before sellout crowds, and had scored from 80 to 116 points in each. The low scores were a pair of 80-65 victories over a group of former Western Kentucky stars. It must be contagious: The Boston university basketball team has a regular second baseman named Ted Lyons, who is 34 years old. That's about the age that the big league Ted Lyons stopped counting.

### FARE ENOUGH

Top story that came out of this week's college publicity convention was an off-the-record account of a pre-season scrimmage between two rival institutions. The day after they met, a freshman tackle who had looked good for the "home" school was unaccountably missing. Overcome with suspicion, the coach telephoned his rival, who admitted the kid was on his campus but disclaimed any knowledge of how he got there. A few minutes later the phone rang. "Coach, I don't like it here; I'd like to come back." "Okay, catch a bus and come on," the coach replied. The kid protested: "I haven't any money. Coach Soandso just gave me enough to get here." The home coach lost patience. "You go tell Coach Soandso to give you enough to get back," he ordered. And that's just what happened.

### REDSKINS BEWARE

New nickname for the Green Bay Packers is "Curly Larsen's Wild West Show" since Line Coach Tom Stidham, who is one-sixteenth Osage Indian, and Backfield Coach Bob Snyder, one-fourth Huron, have joined Quarterback Jack Jacobs, who is three-quarters Creek. If this combination doesn't win, the fans likely will give Curly back to the Indians.

## Select Australia For '56 Olympics

Rome, April 29 (AP)—For the first time in history the Olympic games will be held below the equator. The International Olympic committee (IOC), meeting here, has chosen Melbourne, Australia, as the summer games site for 1956.

Buenos Aires, which had been given only an outside chance by most observers, would have had the games by a shift of one vote.

Detroit, believed before the voting to be a neck-and-neck competitor with Melbourne, failed completely. It got but two votes on the first of four summer games ballots taken. On the fourth Melbourne won by 21 votes against 20 for Buenos Aires. The 1952 Olympics will be staged in Helsinki, Finland.

Cortina, Italy, famed winter sports resort south of the Austrian border, was awarded the 1956 winter games without a struggle.

## COUNTY STARS ASSIGNED TO CLASS D TEAMS

Robert Vincent Weaver, 22-year-old son of Mr. and Mrs. Paul Weaver, 231 "M" street, Littlestown, and George Kress, Jr., 21-year-old son of Mr. and Mrs. George Kress, Sr., Newark street, recently spent several days at their respective homes after having been at Pine Bluffs, Arkansas, the training camp of the St. Louis Browns of the American league, for four weeks.

There were approximately 375 players there, or 13 teams. One hundred and seventy of these were released.

Weaver has been accepted by Oleon, N. Y., a Class D team, which is a member of the Pony League of New York and Pennsylvania of which Shannon Deniston is the manager. He will be a pitcher.

### Set Five Marks

While at Pine Bluffs, Weaver pitched 15 innings. He gave up four hits; walked one; struck out 12 and allowing one run in his turn on the mound. He is a graduate of Littlestown high school, class of 1942, where he was a three-letter-man. He served 36 months in 69th Infantry Division, 18 months of which was in the ETO. He has pitched for the Littlestown Independent team for the last three years. His record in 1948 was 13 wins and two losses in the regular season play. In the play-off, he won four out of the five in which he appeared. He pitched Littlestown to the second pennant in the Penn-Maryland league. Weaver left Thursday for Oleon where his season will start on Saturday.

Kress has been accepted by Warsaw, Wisconsin, which is a Class D team of the Wisconsin state league, and finished second place in the league in 1948. Joe Skurski is manager of this team. Kress will play centerfield.

While at Pine Bluffs, Kress batted .437. He had 42 hits in 96 times at bat, ten of which were home runs. Kress served three years in the U. S. Navy. He was with the Seabees in the Pacific Theatre. He attended Delone Catholic high school at McSherrystown; played center field for Littlestown in 1948 and batted .415. Kress will report to Warsaw on Saturday, where his season starts on May 4.

## DUROCHER IN TROUBLE AGAIN

New York, April 29 (AP)—Leo Durocher was in hot water again today, but nobody knew just how hot. The quick-tempered manager of the New York Giants was accused by a Brooklyn fan of punching and kicking him yesterday at the Polo grounds. Durocher, however, denied he hit anybody.

From a hospital cot, the fan—22-year-old Fred Boysen—said he would bring charges of assault against Durocher. Boysen, a vociferous Brooklyn rooster, said he was attacked on the playing field after Durocher's Giants had been whipped, 15-2, by the Dodgers. Durocher gave this version of the incident: "As I was crossing the field to the dressing room I recall somebody snatching at my cap. I grabbed it back and kept walking. This sort of thing happens every day. I was surrounded by members of the Giants team and there were hundreds of spectators on the field. Do you think I could knock somebody down in front of them?"

Boysen—a war veteran—said he had been razzing the Giants' manager from a box behind the New York dugout. He gave this version: "After the game my cousin and I went on the field. We were passing first base on our way over to talk to Jackie Robinson. Durocher came up behind me. He grabbed me and punched me. As I tried to get up—I was dizzy—he kicked me in the stomach."

Last night Baseball Commissioner Chandler said he had received no official report of the most recent fracas and that he had no comment.

## Pitzer's Javelin Toss Now Official

Dick Pitzer, Biglerville high school track star, will be given credit for having established a new Class B javelin toss in the Shippensburg State Teachers' college invitation meet last Saturday, according to a letter received by Arthur Gordon, athletic director at Biglerville, from Vinton Rambo, Shippensburg coach, who was in charge of field events for the meet.

Pitzer hurled the javelin 175 feet, 11½ inches to better the previous mark of 167 feet, 9 inches, but it was reported that due to a high wind the toss would not be recorded as a new record.

In his letter Mr. Rambo points out the new mark will stand inasmuch as wind is not considered in field events of a meet.

## CONEWAGO BOWS TO LITTLESTOWN

Littlestown nosed out the Conewago VFW team 2-1 Thursday evening in an Adams County Baseball league game played on the Arendtsville field.

The game resolved itself into a tight pitching duel between Jim Spence and Everhart.

Littlestown secured but four hits, including a homerun by Harner. Conewago poled five hits and left no less than 11 batsmen base runners stranded. Bucher, Conewago, was hit by the pitcher three times while his team-mate, Baltzley, drew three bases on balls.

## 'TED' WILLIAMS GETS 1ST HOMER AS SOX BEAT A'S

By JACK HAND

(Associated Press Sports Writer)

American league pitchers, beware! Ted Williams has found the home run range.

While Rookies Johnny Groth and Jack Graham and teammate Vern Stephens battered the fences, Teddy had to be content with singles and doubles. Now he's back in the groove. Williams had a big day yesterday with his first homer, a single and three walks for a perfect day against Philadelphia. He drove in five runs during the afternoon's festivities at friendly Fenway park.

### Meet Yankees Next

Led by Williams, the Sox thumped the A's, 12-5, for a clean sweep of the two-game set. Now they move on to New York for an important series with the Yankees. It was the fourth straight loss for the A's. Manager Joe McCarthy found encouragement in the pitching of Mickey Harris, making his first start of the season. The 31-year-old lefthander allowed only three hits up to the seventh, although the A's final total was 11.

The Yankees warmed up for the Boston series by downing Washington, 6-2, behind Ed Lopat. The chunky lefthander, supposedly a slow starter in the spring and a great hot weather pitcher, now has won three straight.

### Yanks Win 8th

Rookies Dick Kryhoski, with two singles and a triple, and Gene Woodling with a single and triple, led the attack on Rae Scarborough for the Yanks' eighth win in 10 starts.

Groth and Graham each hit their

Jorie Lindsay, 1 up in 19 holes.

New Orleans—Defending Champion Polly Riley, of Port Worth, Tex., was beaten, 3 and 2, in upset by Betty Mackinnon, Mt. Pleasant, Tex., in quarter-finals of Women's Southern Golf Association championship.

### Racing

New York — Ben Whitaker's My Request, winner of four of five races this year, was declared out of Saturday's \$50,000 Gallant Fox handicap at Jamaica because of a bruised foot.

Lexington, Ky. — Mrs. Royce G. Martin's Halt, \$15.40, became a Kentucky Derby threat by winning \$20,000 Bluegrass stakes at Keeneland by nose over Johns Joy. Wine List was third with Old Rockport, the favorite, fourth.

fourth home runs as the St. Louis Browns whipped Detroit, 9-6. Groth got his with the bases loaded, his second grand slam, to send the Tigers out front in the third inning. Although the 22-year-old Johnny drove in five runs and stretched his season-long consecutive game hitting streak to nine games, it wasn't enough.

The Browns pounded four Detroit pitchers, including loser Saul Rogovin, for 15 hits and a sweep of the two-game set. Graham smashed his homer with nobody on in the second.

Brazle Wins Another

Cleveland and Chicago were not scheduled, giving player-manager Lou Boudreau of the tribe another day to rest after being hit on the elbow by a pitched ball.

Both Stan Rejek of the Pittsburgh Pirates, hit on the head at St. Louis Wednesday night, and Bob Elliott of the Boston Braves, injured at Philadelphia Wednesday, were out of action yesterday.

Pete Castiglione filled in for Rejek, getting three hits, as the Pirates lost to the St. Louis Cardinals, 4-2. Alpha Brazle, ace of the Card staff at the moment, copped his second straight. The lefty set down the Pirates with eight hits.

### Injuries Hit Pirates

The Pirates lost another infield regular when Danny Murtaugh twisted his ankle and had to be helped off the field in the sixth inning. He said later it was not serious.

Elliott's place was taken by Connie Ryan, who contributed two hits in Boston's 6-1 romp over the Phillies. Vern Bickford allowed only three hits, all singles, in outpitching Jocko Thompson.

Brooklyn bombed the New York Giants, 15-2, moving into a first place tie with the Braves. While the Dodgers ripped the Giants' pitchers to shreds, Ralph Branca doled out only four hits for his third straight win. Branca was in trouble in the early innings due to wildness, but escaped disaster.

Cincinnati Wins

An eight-run blast in the sixth inning, including a pair of homers by Mike McCormick and Roy Campanella, each with two on, did the trick.

It was after this humiliating defeat by the team he used to manage, that Manager Leo Durocher of the Giants got into an altercation with a Brooklyn fan.

Ken Raffensberger, Cincinnati's crafty southpaw veteran, shut out the Chicago Cubs, 2-0, with seven hits, Johnny Wyrostek, on a hitting spree, scored both runs. Walt Dubiel was the Chicago loser.

Swans were partly domesticated by the ancient Romans who valued their flesh as food.

## Today's Talk

By GEORGE MATTHEW ADAMS

### SNAPPERS

We folk, when all is said and done, are many of us impatient, inconsiderate examples of the human race. When we are not pleased, or when we are opposed, we snap back! Like the little child who stamps its feet when it doesn't get its own way.

Who hasn't witnessed a person in a telephone booth, or out of one, abusing the instrument because the number wanted isn't gotten immediately? Maybe the instrument wasn't to blame. Maybe the telephone girl was overloaded with calls at the moment. No matter—snap, snap, goes the tongue, and frayed goes the temper!

We meet these snappers everywhere and all through life. We do, or say, something—and lo! and behold the snapper gets busy. Why did we do thus and so, or why didn't we think before such an idea? Thus it goes. It may occur in business, in a public place, or in fact anywhere. These snappers must carry a keg of indigo always with them!

I am no psychologist, but I venture to state that the snapper must have a disorganized brain, and something ought to be done about it. It is not a healthy state in which to go through life. In time the nervous system, or the mechanism of the brain itself, may revolt. The snapper habit is not one that leads to peace of mind.

When in college I was night clerk at a hotel, with my roommate, for which we received our meals and nothing more. My employer was a woman who was a snapper de luxe. Nothing ever pleased her. One day seemed to be in awe of her. One day we heard the fire alarm. The engines steered in the direction of our meal ticket. We ran to the scene. Sure enough, our hotel was on fire, and we watched it burn to the ground. No lives were lost, however, and I have never heard of that snapper lady since!

How great is that one who has gained serenity of spirit—who has learned to control his tongue and his temper, who has the character to rise above impetuosity—who never snaps back at a friend or foe. The Bible speaks of such a one as being "greater than he who taketh a city."

Tomorrow Mr. Adams will talk on the subject: "The Imagination."

Old-fashioned flowers ask little care.  
They're like a faithful friend.

# BARGE BATTLE DEFEATED BY RED RETREAT

Berlin, April 29 (AP)—A truce was arranged today in Berlin's "Battle of the Barges."

Two Russian officers who had attempted to halt traffic in the British sector canal locks yesterday and Wednesday returned today and announced they had orders "not to cause any trouble" and not to interfere with British traffic in the canals.

British officers on the scene said they understood the dispute was being referred to "higher authority" for settlement.

Armed British military police still stood guard on the locks, and barge traffic continued unmolested.

Five Russians carrying sidearms, who had announced their intention to remain at the canal locks to stop barges lacking Soviet registry, pulled out during the night, leaving the British in sole command until the two Soviet officers showed up this morning.

**Resent Interference**

The Russian claim is that no barges may be operated on Berlin's canals, which lace waterways in the Soviet zone west of Berlin with those in the eastern part of the Russian zone, unless they have registration certificates issued by the Russian-controlled waterways directorate.

The British do not dispute the right of the Soviet military administration to supervise the canals technically.

They do, however, reject any claims by the Russians to interfere with this specific type of traffic which is purely for western Berlin and is of no interest to the economy of the surrounding Soviet occupation zone.

# GOP HOPEFUL OF SLASHING U.S. TAX BOOST

Washington, April 29 (AP)—Republican Senators, encouraged by an upset victory, today drove to slim down President Truman's multi-billion dollar spending program all along the line.

Thus they hope to kill any Federal tax increases this year.

Senator Taft (R-Ohio) spearheaded the successful economy campaign which late yesterday sent a \$2-400,000,000 money bill back to the Senate Appropriations committee with instructions to cut it.

A solid bloc of 36 Republicans got unexpected aid from eight Democrats to turn that trick and bowl over a long-standing Senate tradition not to send appropriation bills back to committee. Voting against the motion were 37 Democrats.

**Democrats Tricked**

Most Senators thought they were voting for a cutback of about \$15-600,000. But experts on Senate rules say the slash actually may include well over \$200,000,000 previously added to the bill but chopped off by its return to committee.

Taft, smiling broadly, told reporters afterward that he apparently caught the Democratic leaders by surprise. Only a few moments before they had blocked a GOP move to cut the bill on the floor. The vote was 45 for the 35 against—considerably short of the two-thirds margin required.

# Make \$6,000,000 Change In Measure

Harrisburg, April 29 (AP)—A \$6,000,000 oversight was corrected by the General Assembly.

A bill was sent to Gov. James H. Duff restoring carbonated water to the state's soft drink tax.

The action added \$6,000,000 to the estimated revenue from that levy, bringing the two year take to \$28,000,000.

While the hot controversy raged over renewal of the soft drink tax early in the session, carbonated water was amended out of the bill. The whole measure had to be re-passed to restore it.

# AIRLIFT COST \$149,664,200

Washington, April 29 (AP)—Operation of the airlift into Berlin during the first 10 months has cost the United States \$149,664,200, Rep. Van Zandt (R-Pa.) said today. There is talk now it may not be needed much longer, that the Russians may end their land blockade of Berlin.

Van Zandt, a member of the House Armed Services committee, provided figures for the congressional record showing this cost breakdown:

Operation, \$45,825,100; support, \$57,370,700; reserve, \$28,958,700; wrecked planes, \$7,522,000, and depreciation of aircraft, \$9,987,700.

During the first 10 months Van Zandt said, 319 air force and navy planes assigned to the operation completed 120,377 flights and carried more than 1,250,000 tons of food and supplies.

As of April 25, 1949, he said, 22 planes had been wrecked and 28 air force fliers killed.

In support of the airlift, he said, the U. S. Army of Occupation spent, as of March 31, 1949, approximately \$7,000,000 for food, supplies, transportation and other items.

quired.

"Apparently the Senate is getting serious about cutting expenses," Taft said.

Senator Bridges (R-N.H.) called it a "gratifying victory for those who believe the cost of government can be reduced and are willing to fight for it."

The bill, first money measure to reach the Senate this session, carries funds for labor and federal security agencies.

# INDIAN PACT WILL PRESERVE COMMONWEALTH

By DEWITT MACKENZIE  
(AP Foreign Affairs Analyst)

The historic agreement whereby India can become a republic and still remain a member of the British commonwealth of nations, without recognition of the King's sovereignty, constitutes one of the striking developments of these amazing days.

By a simple juggling of words this great commonwealth has been saved from the disastrous loss of India's membership and the possible withdrawal of other members later. Not only that, but the new commonwealth (which abandons the designation of "British") bids fair to be far stronger than ever.

The weakening of the commonwealth at this crucial juncture in the cold-war between the Communist and the anti-Communist blocs would have been a serious blow to the latter. This would be especially true as regards India, for this great nation of 300,000,000 people may easily become the key-stone of the defense against Bolshevism in Asia.

**No Constitution**  
As a matter of fact, it's a fair guess that this aspect of the situation was constantly in the minds of the London conferees.

The change in the commonwealth relations perhaps couldn't have been achieved but for the extraordinary circumstances that Britain has no written constitution to hamper the reframing. The constitution just grew up through precedent. The same is true of many laws, which are based on custom and common-sense interpretation.

Thus freed from constitutional barriers, the commonwealth conference in a few sessions figured out a way to get around the kingly sovereignty to which India objects so fiercely. As things now stand the king is accepted "as a symbol of free association" of the independent members, "and as such, the head of the commonwealth."

**Sees New Merger**

One can pass on without referring to Winston Churchill's comment on the commonwealth agreement. He hailed it as a possible step towards merging the United States with a united Europe. He said such an association might bring to a harassed and struggling humanity real security and freedom for hearth and home.

Throughout the long reign of the British throne India, with her hundreds of Arabian Nights princes, was the scene of a regal splendor rarely equaled in history. The imperial durbars, with the bejeweled maharajahs and their caparisoned elephants, were story book dreams.

Furthermore the Indians are a liberty-loving people, and they are proud. They bow to nobody these days, since they won their independence under such leaders as Prime Minister Nehru and the great Gandhi, who was Nehru's friend and teacher.

Johannesburg, South Africa, April 29 (AP)—A three train collision 10 miles outside this city killed 74 persons and injured more than 90 yesterday. It was the worst railway disaster in the history of the country.

Among the dead were two white Europeans and 14 Indians. The rest were natives.

Two of the electric trains were standing on the track when the third came around a curve and smashed into them. The three trains were all headed in the same direction on a high embankment at Orlando in Natic township.

Chapter 8

The trailer camp loomed ahead. A grassy spot, marked by half a dozen trailers parked humbly close, shaded by tall, feathery-looking Australian pines, with the blue shimmer of the lake visible through the trees.

Felicity blew her horn. There was a weatherbeaten small cabin at the far end of the camp. As Felicity's horn broke the noonday stillness, a screen door slapped somewhere and a plump, middle-aged woman with graying hair done in a loose knot on the back of her head, her clean print dress covered by a white apron, came towards her.

Felicity liked "Ma" Green at sight. Her gray eyes were twinkling and cheerful; her plump face was highly colored, guileless alike of makeup or wrinkles.

"Howdy," she greeted Felicity cheerfully. "Like to stay awhile?"

"Yes, we would—very much," said Felicity warmly, relishing the woman's friendly welcome twice as much after the frigid reception they had had on the other side of the Lake. "But—I have some children. Do you mind?"

"Do I mind? Not if you don't. After all, they're your young ones," said Ma Green comfortably, looking more sharply at Felicity. "But land sakes, girl, you look mighty young to have a bunch of kids."

"They're my brothers and sisters," Felicity answered her. "And we'd like to stay all winter."

"Well, now, that's just fine. If you're going to be sort of permanent, you'd better have a 'hitch' down near me, where you won't be disturbed by the coming and going of the transients."

Ma Green showed Felicity to a parking space down at the farthest end of the camp, where the trailer stood broadside to a glorious view of the Lake.

Neither Felicity nor Garrett was aware of Tippy's slowness in leaving Garrett's trailer, nor of her uneasiness that sent her back now and then to peer in at the window.

They were all about the table. Tippy the last one in and insisting on a seat nearest the door, and they were just beginning the meal when suddenly the music of the next-door radio broke off and they heard a man's excited voice, saying:

"We interrupt this program to bring you a news-flash. Allen, the year-old son of Susan Fleming, often mentioned as 'the richest girl in the world,' has been kidnapped from the beach in front of the Fleming home. Every bridge and boat-dock leaving the island of Palm Beach is under heavy guard."

There was a small crash. Felicity turned and saw Tippy sitting white-faced, a splash of milk on her face, the broken glass in her plate. Tippy's eyes were wide with terror and she was shaking violently. "I betcha I've got Mrs. Fleming's baby," she confessed, now in such terror that she had no longer any thought of concealing the reason of her earlier uneasiness.

"Tippy—tell me—what did you do?" demanded Felicity. Tippy slid down from her chair and pattered out of the trailer, Garrett and Felicity following her, the other children crowding behind. Tippy opened the door of Garrett's trailer and climbed in, the others following her. And there on Garrett's bed, hemmed neatly in by pillows, lay a sleeping baby. His scrap of a white sun-suit revealed plump golden-brown limbs and an adorable head covered with little "ducktails" of soft dark curls.

Tippy looked at the baby and then fearfully up at a horrified Felicity; and Tippy whimpered. "I—I'm—sorry, Fliss. Only he was so cute—and—he wanted to come with us. I didn't know he was somebody else's baby. I thought maybe he'd like to live with us."

"Oh, Garry—Garry, what am I going to do?" whispered Felicity so desolately that Garrett pulled himself together with an effort.

"Your English needs correcting, my angel," he told her grimly. "You mean what we are going to do."

Garrett said sternly, "Here—snap out of it, Fliss. Pull yourself together. We have to work fast. Before the alarm spreads very far. Jay, take the children back to the trailer and give them their lunch and ride herd on them until we come back. Promise not to let one of them out of your sight for so much as five minutes, will you, old man?"

"Okay, Garry. Come on kids," said Jason, herding the children before him.

Tippy, trying to slide out unnoticed, caught Garrett's stern eye and paused uneasily. "You're coming, too, my lady," said Garrett. "So you can tell Mrs. Fleming all about why you thought her baby

would like living with the Hornes."

"Yes, sir," said Tippy faintly, too scared to do anything but obey, and far too terrified to think of exerting any of her small charm on this irate young man in the hope of escaping punishment.

(To be continued)

## NEW PENAL CODE UP TO GOVERNOR

Harrisburg, April 29 (AP)—A new penal code, increasing gambling penalties and establishing the double verdict method in murder trials for the first time in Pennsylvania went to Gov. James H. Duff today for action.

The new code was passed finally in the House yesterday after heated behind-the-scenes opposition. It would become effective January 1, 1950.

"We're happy about defeating the undercover efforts by gamblers to influence the votes of lawmakers," said Rep. Edwin W. Tompkins (R-Camden).

The measure carries a provision to double gambling fines to \$1,000. The code calls for a \$1,000 fine and a year's jail sentence as a maximum penalty for gambling.

The new double verdict method would give juries a chance to act separately on the question of guilt and on the question of punishment. Once a jury found a person guilty of first degree murder, it would then hear any new evidence before fixing a penalty of life imprisonment or death.

Fines also would be increased from \$500 to \$1,000 for operating lotteries and gambling places.

### WHY GROW SUNFLOWERS?

Among the many adapted crops

which we now import and which could be and should be grown on American farms to enrich American farmers, sunflowers are not among the least. Here is a hardy annual plant whose heavy top growth makes excellent silage. The seed is exceptionally rich in protein and yields a valuable oil needed in human foods in several industrial roles. The seed cake left after oil is compressed is a nutritious livestock supplement feed. Sunflowers, like corn, are harvested in plenty of time to permit seeding of wheat, rye or other grain in early fall to fit into the rotation scheme and protect the soil from surface erosion over winter. The heavy seed heads may be used profitably to feed poultry, turkeys, other domestic fowls and wild game birds over winter. It is probable that scientific research could find many additional uses for sunflower oil if we expanded production instead of depending on import supplies from foreign farms.

Of course, until more progressive supervision and administration in state and national agricultural departments promotes wider production of such crops as sunflowers and thereby set up domestic channels of seed sales for processing, individual farmers should grow this fine crop solely to meet their own farm demands. First among these roles is silage. Tests show that sunflower silage compares favorably with corn silage as feed for livestock. Yields range as high as 13 and 19 tons per acre, with harvesting and ensilage labors perhaps somewhat less than those required to handle corn for the same purpose.

Sunflower seed exceeds those of all other crops in protein content, with the exception of soybeans. Most authorities accept the averages of 33.2 per cent proteins for soybeans and 23.3 per cent for sunflower seed, with cowpeas ranking third with an average of 19.4 per cent.

Sunflower oil is one of the relatively few vegetable oils which may be used in its crude or unrefined state for inclusion in human foods, such as oleomargarine and cooking compounds, also in several industrial roles. Primarily it is classed in the semi-drying oils. Over the last 18 years we have averaged an annual importation of slightly more than 21,000,000 pounds of sunflower oil or seed in terms of oil.

For silage sunflowers should be planted no later than corn planting time, with a week earlier preferable under most conditions. And the same advice applies where the crop is grown exclusively for seed.

In the absence of experience as a guide, it is safe to assume that sunflowers will thrive on any soil that will grow a good crop of field or sweet corn, a well drained, deeply mellow loam that contains plenty of moisture-holding organic matter to

carry the plants through late summer without moisture deficiencies.

Seed should be planted in rows somewhat narrower than corn, with plants thinned to stand 10 to 12 inches apart in the row. Cultivation is aimed primarily to eradicate weeds and grass. Thus, with the plants creating dense shade with their heavy tops and vigorous growth, tillage requirements are not extensive.

For silage the stalks should be harvested before they grow woody and before the seeds reach the hard dough stage. For seed to feed wild and domestic birds the heads should ripen fully on the stalk.

The editor invites all related questions on this crop.

### FACTS ABOUT PASTURE FOR HOGS

So many direct and indirect advantages are attained from keeping hogs on pasture that it is actually difficult to compute all the benefits. But certain it is, as experience has demonstrated innumerable times, that no hog raiser, regardless of how many hogs are kept, can afford to deny swine ample grazing from spring until fall.

Pasture-fed hogs gain faster and require less supplemental feeds to bring them to marketing weight than dry-lot animals. One test which the editor observed several years ago proved that pigs on clover and rape pastures required 10 per cent less corn and 28 per cent less tankage to make 100 pounds of gain than comparable animals in dry-lots. And what was even more important, the pastured animals were ready for butchering 24 days ahead of the dry-lot hogs. In the light of present feed prices, such pastures would be worth from \$60 to \$75 an acre in direct benefits over dry-lot methods.

Of course, these direct gains are easily observed. But many of the invisible benefits may be even more valuable. For example, pastured pigs show greater thriftiness and resistance to certain common hog diseases. Too, there is almost total freedom from roundworms and other internal parasites. That these advantages are considerable may be seen

hogs should have continual access to self-feeders, with one bin containing tankage, another finely ground limestone, another charcoal, another salt, and perhaps another containing steamed bone meal or a commercial combination of these important minerals.

As pigs increase in weight their pasturage needs increase, or in other words, the grazing area per animal must be increased.

CHINESE REDS SEIZE WUHING, SHANGHAI PROP

By FRED HAMPSON  
Shanghai, April 29 (AP)—Communist troops today seized Wuhing, a key point 40 miles north of Hangchow, the main prop for Shanghai. Wuhing is 36 miles west of Kashing, control point on the Shanghai-Hangchow railroad.  
Kashing, 62 miles southwest of Shanghai, was in the path of a Red column driving south from Soochow (Wuhsien).  
A Nationalist communique said a Red drive on Shanghai appeared to be a move to protect the flank of the southbound columns.  
It asserted the force coming from the west had been checked about 37 miles west of the metropolis near

Kunshan, on the Shanghai-Nanking railway. Trains to Kunshan had quit running.  
The Shanghai garrison reported the capture of Wuhing now was advancing south toward Hangchow. It earlier had reported the Communist 23rd Army was operating in this region.  
It appears that the main Red push is aimed now at Hangchow, not Shanghai. With the capture of Hangchow, Shanghai would be sealed off by land. This could mean that an attack on Shanghai will be delayed.  
The garrison said a strong force of government troops was deployed between Hangchow and the Reds in the north. The garrison said the Reds were headed toward Wukang, 25 miles northwest of Hangchow.  
Short on Rations  
The communique quoted Red prisoners as saying Communist troops who crossed the Yangtze had only three days' rations and were without supply stations.  
The garrison charged the Com-

TWO TESTIFY HOW GIRL WAS TRAPPED BY FBI

Washington, April 29 (AP)—The government called two key witnesses today in the Judith Coplon espionage trial.  
One is William E. Foley, who was Miss Coplon's boss in the Justice Department. He was called to testify about a half true, half false FBI report the prosecution says he showed her the day of her arrest.  
In his opening statement yesterday, Raymond P. Whearty, a prosecutor, was looting the country-side in occupied areas, searching for food.  
Vice Admiral Oscar C. Badger, commander of the Western Pacific Fleet, said U. S. Navy forces would be retained at Woosung as long as needed "in the safe evacuation of American nationals from Shanghai."  
Woosung is some 10 miles from Shanghai where the Whangpoo flows into the Yangtze.

outor, said handwritten notes from the report were found in Miss Coplon's purse when she was arrested in New York with Valentine A. Gubitchev, a Russian.  
Scheduled to follow Foley on the stand is Mrs. Ruth M. Rosson, an attorney in the Justice Department's internal security section.  
Prosecutors said her testimony will be in support of Whearty's statement that Miss Coplon protested when she was relieved of her job of studying internal security reports. When this was done in mid-January, Whearty said, Miss Coplon insisted upon being allowed to see all internal security reports and all information about embassies, consulates and their personnel.  
Miss Coplon, a tiny, 27-year-old brunette, is accused of removing secrets from government files "with intent and reason to believe" the information was to be used to injure this country and to aid a foreign nation.  
She also is under indictment in New York along with Gubitchev on espionage conspiracy charges.  
Whearty told the jury that Foley showed Miss Coplon memorandum from J. Edgar Hoover, director of the FBI, to Peyton Ford, assistant to the Attorney General, on March 4.  
The first half of the memorandum, Whearty said, told of two FBI informants in the Amtorg Trading Corp., a Russian concern. He said this information was "deliberately false."  
The second part, which he called "100 per cent accurate," told of Russian efforts to obtain geophones, instruments for measuring the force of blasts. While classified as secret by the Atomic Energy Commission, Whearty said this information would not have been damaging had it fallen into unauthorized hands.

BRITONS BLUSH OVER "OATHS"

London, April 29 (AP)—Britons tuned to the staid BBC were shocked to hear oaths and curses suddenly come hurtling out of the ether last night.  
The occasion:  
A broadcast of the first dinner of the Royal Academy since the war—an event expected to be as sedate as a temperance tea.  
But the diners—who included Winston Churchill, the Archbishop of Canterbury and Field Marshal Viscount Montgomery—got involved in an argument on modern art.  
Retiring President Sir Alfred Munnings, 69, said modern painters were dabblers who "cannot paint a tree to look like a tree." He went on to make lightning cracks about French Modernists Pablo Picasso and Henri Matisse.  
Outraged supporters of the modern painters shouted, banged on tables and yelled language which is banned from the air all over the world.  
Sir Alfred, to emphasize his distaste for Picasso, told of walking one day with Mr. Churchill:  
"Mr. Churchill said to me 'Alfred, if we saw Picasso coming down this street towards us, would you join me in kicking a certain part of him?'"  
"I said 'By God, Winston, I would.'"

Constabulary Seek Slayes In Retreats Of Red-Led Huks

Manila, April 29 (AP)—Hukbalahaps identified as the slayers of Mrs. Aurora Quezon and 11 others were engaged in a battle by Philippine soldiers and constabulary today.  
Gen. Alberto Ramos, chief of the Philippine constabulary, said the battle had been under way since last night in the Sierra Madre mountains.  
The Communist-led armed peasants were identified by Lt. Col. Angel Magallanes, Nueva Ecija provincial commander of the constabulary, as the slayers of the widow of the Philippines' first president.  
Manila, April 29 (AP)—An angry constabulary today went gunning in the retreats of the Communist-led Hukbalahaps for the ambush killers of the Philippines' greatest lady and 11 other persons.  
The bodies of Mrs. Aurora Quezon, widow of the first President of the Philippines, her daughter, Maria Aurora, 33, and her son-in-law, Felipe Buencamino III, lay in Manila funeral parlors.  
Their bodies along with those of four other victims were brought down from the north under armored car escort. Thousands of grieving Filipinos visited the parlors.  
Ask Martial Law  
There were cries from congressmen for martial law in the Huk country north of Manila, where the slayings occurred yesterday.  
That land of violence produced a second ambush in the same general area only a few hours after Mrs. Quezon's party was waylaid. Mayor David Ventura of Santa Rosa, two members of the Philippine constabulary, and a civilian were reported killed.  
Brig. Gen. Alberto Ramos, head of the constabulary, flew north and took charge of the manhunt.  
There was official reluctance to identify the attackers as the armed peasants under Communist command who go by the name of Hukbalahaps.  
But Manila newspapers and most citizens agreed with Brig. Gen. Carlos P. Romulo, delegate to the United Nations, Stopping in San Francisco, he said he believed the Huks committed the killings.  
President Elpidio Quirino blamed bandits, Manila newspapers thought he may have been the object of the ambush. He had planned to join the Quezon party but said at the last minute he was unable to go.

FORMER MOVIE EXTRA ADMITS CRACKING SAFES

Columbus, O., April 29 (AP)—A former Hollywood movie extra was the central figure today in a real life story involving scores of safe-cracking jobs.  
Kenneth L. Scott, 29, whose only bid to screen renown was bit parts as a card player, boasted a better record as a safe burglar.  
"I'm the third best safe-cracker in the country—and I'm not sure the other two are better," he told Detective Stacy R. Hall.  
Detectives at first regarded skeptically Scott's boasting, but he soon proved his ability by opening a "crackproof" safe in about five minutes.  
Hall said the Hollywoodite was arrested yesterday in a tourist camp east of Columbus. Also arrested was Thomas N. Reilly, 28, of Darby, Pa., who Scott described as his "apprentice."  
Hall said the men admitted breaking into 11 safes in Columbus. Charges are to be filed against them today.  
Faces Many Charges  
Los Angeles police reported Scott was wanted there for jumping bond. He was accused of burglarizing 79 Safeway (grocery) stores of some \$65,000 in loot, the California police said.  
"I've grossed better than a quarter of a million dollars," Scott casually remarked. But he hastily added, "I've been convicted for some time that this business doesn't pay."  
Los Angeles police records show him as a movie extra who played card dealer roles.  
Regardless of his movie ability, Detective Hall said Scott is "the best safe man that ever hit this town."

LEWIS DOUGLAS VISITS HIS OFFICE

London, April 29 (AP)—United States Ambassador Lewis Douglas went to his office for the first time since he snagged his left eye with a fishhook while trout fishing April 4.

Douglas, who spent nearly two weeks in a Southampton eye hospital after the accident near there, spent some time at the embassy conferring with members of his staff and attending to routine business.

His eye is still bandaged. His doctors said Wednesday they had real hope of saving the sight of the eye.

# Gov. Duff Wins Bitter Fight For \$15,000,000 State Housing Program

## CONSERVATIVE REPUBLICANS CRY 'SOCIALISM'

Harrisburg, April 29 (AP) — Gov. James H. Duff won out today in his fight for a \$15,000,000 state housing program despite bitter end opposition from conservative Republican elements.

The victory came in the closing hours of the 1949 session of the General Assembly which saw some of the sharpest criticism of the Republican executive's program come from members of his own party.

"It amounts to nothing more nor less than state socialism," asserted Sen. George N. Wade (R-Cumberland) in a last-ditch attempt to stave off approval of the plan.

"A New Departure" But only he and four other GOP Senators voted against it. Thirty Republicans and 15 Democrats passed the program 45-6. Only House agreement on a Senate amendment to one of the seven bills remained to complete legislative action.

Duff, in urging the housing legislation months ago, termed it "a new departure" for Pennsylvania but said it was necessary if low rental homes are to be built for Pennsylvanians.

It provides for flat state subsidies to private builders and housing authorities to pay up to 35 per cent of construction costs of low rent housing units. Veterans will get preference as tenants. In addition, cities can choose to use up to \$4,500,000 of the fund for slum clearance and urban redevelopment projects.

Many Matters Not Settled The House, at the same time, wrote the final chapter in session-long dispute over local taxes. It approved 135-60 a Senate measure banning levies on coal or other natural resources, farm and manufactured products and imposing ceilings on permissive taxes on amusements, wages, sales and mercantile trade.

School districts, in addition, would be barred from collecting wage taxes from non-residents.

Still unsettled as the session went into its fifth day this week and probably the last one of the session were a score of disputes between the Senate and House. Topping these was the argument over a \$2-

STUDY IN SPOKES — Workers in an English factory set spokes in wheels of bicycles for export to the U.S. and Canada.

300,000 refund to beer distributors from the state tax on malt beverages.

The Senate has insisted on a five per cent refund for breakage but the House had turned it down repeatedly. The stake involved is the \$23,000,000 expected revenue from the commonwealth's temporary tax on beer.

Legislative conferees also huddled over proposed compromises that

would permit final approval of measures to:

Require automobile traffic to halt for school buses loading or unloading on highways outside of built-up areas. At issue was the method of marking buses owned by public utilities which haul school pupils.

Authorize coal miners and other workers employed two or three days a week to collect jobless benefits through accumulation of unemploy-

ment credits and to establish a new employer reserve system for calculating payroll taxes for unemployment compensation.

Increase the salary of the next governor from \$18,000 to \$25,000 and boost the pay of cabinet posts to \$15,000 a year.

### Turn Back the Clock

Although officially the session will be marked down as ending at 6 p. m., EST, last night, the lawmakers kept the legislative wheels turning by the time-honored expedient of turning back the clocks in the halls of the Senate and the House.

When the House took time out for sleep during the night, the records will show there was only a "fifteen-minute recess." The Senate too took an overnight rest after a midnight session.

It was the housing program which brought the sharpest criticism so far for Governor Duff from any in his own party. Wade said the Republican governor "has succeeded in having us pass an almost duplicate of the little New Deal program brought to Pennsylvania" by former Gov. George H. Earle, a Democrat.

### Duff Assailed

"This general assembly, upon orders from Governor Duff, has done

## Seeking Man Who Abducted Girl, 19

East Stroudsburg, Pa., April 29 (AP) — State police announced today they have started a nation-wide hunt for a hosiery worker they said forced a 19-year-old girl into his car and drove off.

The man was identified by East Stroudsburg police as David Smith, 38, and the girl as Ruth Lorraine Dippie, formerly employed as Smith's housekeeper.

Swinck and state police quoted the girl's brother, as telling them Smith forced Ruth into his car early yesterday as she was walking home from a party with her brother and his wife. Robert said he tried to prevent Smith from driving away, Swinck added, but was unable to overcome the older man.

Swinck said the girl is five feet, three inches tall with dark brown hair. She was wearing a pink dress and a short white coat. The police chief said Smith was driving a dark green 1942 sedan.

Bishop Leech Sails Thursday For Rome New York, April 29 (AP) — Bishop George Leech of Harrisburg, Pa., is one of 18 Roman Catholic bishops and archbishops from Canada and the United States en route to Rome to visit Pope Pius XII.

They sailed on the liner Saturnia. "Are we going forward under the progressive leadership of Governor Duff or are we going to stand still?" he asked.

For the Democrats, Sen. John H. Dent, the minority leader, said the program "is inadequate and should have been started six years ago."

## FBI AGENT GIVES TESTIMONY IN COPLON TRIAL

By KARL R. BAUMAN

Washington, April 29 (AP)—The FBI agent who arrested Judith Coplon and Valentine A. Gubitchev says her purse yielded:

1. A statement telling of efforts to obtain a top secret FBI report.

2. Background statements concerning three potential recruits for espionage service.

3. More than 30 sheets of paper known as data slips containing extracts from FBI reports on internal security matters and suspected espionage agents in this country.

**Await Court Ruling**  
The agent, Robert R. Granville, filed a sworn statement Wednesday in justification of the arrest of Miss Coplon and Gubitchev without a warrant.

It was part of the government's reply to a defense motion to bar the prosecution from using the seized papers in Miss Coplon's trial here on espionage charges. She and Gubitchev, a suspended Russian employee of the United Nations, also are under indictment in New York on espionage conspiracy charges.

Judge Albert L. Reeves of Kansas

City, Mo., who is presiding at Miss Coplon's trial, may rule today on the defense motion.

### Claims Illegal Arrest

Archibald Palmer of New York, Miss Coplon's attorney, contends that FBI agents seized only Miss Coplon's "private papers." He wants them returned to her, thus preventing their use in her trial. He further contends that Miss Coplon's arrest was illegal because the agents had no warrant.

Granville told in minute detail how agents working under his supervision "shadowed" Miss Coplon, 27, a suspended Justice Department employee, prior to the arrests in New York March 4.

Granville said this is the "exact language" of a statement found in Miss Coplon's purse: "I have not been able (and don't think I will) to get the top secret FBI report which I described to Michael on Soviet & Communist intelligence activities in the U. S. x x x When I saw the report, for a minute, I breezed through it rapidly, remember very little. It was about 115 pages in length; summarized first Soviet 'intelligence' activities, including Martens, Lore, Poynts, Altschuler, Silvermaster, et al. It had heading on Soviet UN delegation but that was all I remember. The rest of the report I think was on Polish, Yugo, etc. activities xxx."

## PATRONAGE TAG MAY LOSE SOME BACKING ON BILL

By HOWARD DOBSON

Washington, April 29 (AP)—A House leader said privately today President Truman "lost votes" for the administration Labor bill by tying it in with political patronage in a news conference statement.

But the Democratic chieftain said he still expected the administration to win the labor-law showdown due in the House today.

The President indicated to newsmen yesterday that only lawmakers who support the Democratic platform—including repeal of the Taft-Hartley law—can hope to have their choices named to federal offices in their districts.

The southerners at whom the comment was primarily aimed were

his new duties as president of Westminster college.

The United Presbyterian college's 1,150 students greeted the 44-year-old minister from Iowa yesterday with a parade and a rally. He replaced Dr. John Orr, Bible department head, who had been acting president since Dr. H. Lloyd Clelland resigned in June, 1947. The two Orrs are not related.

furiously. And Democratic leaders, who have been busy for weeks trying to line up votes for their Taft-Hartley repeal measure, acknowledged that Mr. Truman's statement hurt. One of them, asking not to be identified, said:

### Stick To Prediction

"He lost us some votes. We have had to go around and do over again some of the work we thought we had settled two days ago."

But this administration man and others stuck to their prediction that the substitute bill introduced by Rep. Wood (D-Ga.) would be defeated.

Some Democratic leaders expected a quick vote on this measure, which has the backing of Republicans. But others talked of calling a Saturday session. Otherwise the final vote on the administration bill might not come before next Tuesday or

Wednesday.

The Wood bill would repeal the Taft-Hartley law in name, but would keep almost all of its provisions and even large chunks of its exact language.

### "Contemptible Conduct"

The administration bill is sponsored in the House by Labor Committee Chairman Lesinski (D-Mich). It would replace the present law with a slightly altered version of the New Deal Wagner act.

The story had been on the news wires only a few minutes when Rep. Hebert (D-La.) pitched it into the middle of the Labor debate. He supported the states' rights party's Thurmond-Wright ticket last fall.

To the accompaniment of loud cheers and applause from the Republican side of the chamber, Hebert told the House Mr. Truman had "placed a patronage purchase

tag" on votes for the Lesinski bill. Rep. Rankin (D-Miss) called it "the most contemptible conduct I have ever known."

The apes called the chimpanzees are more like men in intelligence than any other animal.

### WAGE DISPUTE LOOMS

Allentown, Pa., April 29 (AP)—The Mack manufacturing company has informed the CIO-United Auto Workers union that it wants to reduce wages at its plant here and at three in New Jersey. The company announcement came last night after

the union disclosed it was seeking an across-the-board raise of 15 cents an hour.

Sales of products and services through vending machines in 1948 in the U. S. were estimated at about \$750,000,000.

## VETS' HOPES FOR SPECIAL PERMIT FARE

Harrisburg, April 29 (AP)—Hopes of state-wide veterans organizations for special canteen liquor licenses went glimmering today.

The House turned down an eleventh-hour proposal to insert the canteen provision in two Senate-passed measures to allow appeals in liquor cases to the state Supreme court for the first time.

It took the action after Rep. H. G. Andrews, Democratic floor leader, raised the question that it lacked constitutional authority to take any such action and the lower branch sustained him on a standing vote.

Called "Dangerous"  
Rep. George D. Stuart (R-Allegheny), himself a veteran of both world wars and a long-time member of the American Legion, aided greatly in the fight on the proposal. He insisted the rank and file members of veterans organizations are not interested in the legislation.

"They consider they are first, American citizens, and next, veterans," Stuart said. "I think this is very dangerous legislation and should be defeated."

Rep. Leon Kolankiewicz (D-Phila.) answered that the canteen license question were mandates from both the American Legion and Veterans of Foreign Wars conventions. The same proposal for the special licenses to be issued to affiliates of national veterans organizations had been killed in a Senate committee.

Washington, April 29 (AP)—The administration plan for a vast expansion of social security has picked up strong support on the House Ways and Means committee, a spot survey showed today.

As the committee started writing a new bill after two months of hearings, a check of members indi-

## Ohio Legislators Like Pa. Turnpike

Columbus, April 29 (AP)—Ohio legislators apparently like the Pennsylvania Turnpike super-highway.

Two Ohio state senators Wednesday recommended passage of a bill to permit construction of Ohio toll super-highways like the Keystone state turnpike.

The Ohio bill, which would create a turnpike commission of five members, already has passed the Senate. The state highway director would be an ex-officio member.

A close vote on the bill was expected in the House where a similar proposal bogged down after receiving Senate approval two years ago.

## SENATE TODAY TACKLES CHILD HEALTH PLAN

By JAMES MARLOW

Washington, April 29 (AP)—What about the health of the 29,000,000 children between the ages of five and 17 in this country? If they have physical defects that are found and treated they can grow into healthy men and women. Otherwise, their lives are marred.

The Senate today tackles, and is expected to approve, a bill giving the states \$35,000,000 to help them set up child health programs.

This won't become law, of course, unless the House also approves it at some later date in this session.

They Think This Way  
But this is the thinking of the senators—a number of Democrats and Republicans—who have combined to push the bill:

They figure in this country there are perhaps 7½ million children with bad tonsils or adenoids; 4,000,000 with eye defects; 1,000,000 with ear defects; 500,000 with rheumatic fever; 200,000 with epilepsy; and 500,000 with other ailments.

In making a report on the bill, the senators say it has been estimated that 75 per cent of all school children need some dental care. Periodic health examinations are needed to discover their ills and get them treated so their trouble can be cured or checked.

About 36 of the 48 states now provide medical examinations or inspections of their school children. In some of the states there are examinations every year, in some only every three or four years.

The health services for school children vary widely in thoroughness and effectiveness. Why? Not enough money in some states to do a good or better job. This is true in most of the states, the senators report. They say:

In many areas and particularly those with low incomes and large numbers of children, the "prevailing school health programs, if any, are grossly inadequate."

Less For Rich States  
Well, what can be done about it? The senators want the states to develop programs to give examinations to all schools, public and parochial, where it can be done at reasonable cost.

And, further, they want the states to provide treatment for free for mental and physical ills whenever

## COMPENSATION LAW CHANGES REACH DUFF

Harrisburg, April 29 (AP)—Administration legislation liberalizing Pennsylvania's compensation laws reached Gov. James H. Duff today.

The measures provide for maximum weekly benefits of \$25 instead of \$20 starting July 1 for workmen's unemployment and occupational disease compensation.

They also would establish a normal five-day work week instead of actual earning as the basis for determining how much aid shall be paid by industry to workers who are disabled by injury or illness on the job.

One Point Unsettled  
Left unsettled as final adjournment of the General Assembly neared was the question of whether jobless benefits for workers on part

the parents can't afford to pay. To get the full \$35,000,000 provided for under this bill, the states would have to put up at least \$25,000,000 of their own money.

Not all states would receive the same amount of government help. The richer ones, better able to afford good health programs, would receive a smaller percentage of government money than the poor ones.

time should be calculated on a money or time lost basis.

A combination of Republican and Democratic votes wrote the time-lost proposal into a Senate measure changing the system of calculating payroll taxes for unemployment compensation, but the Senate refused to accept it. A conference committee was named to iron out the differences.

The workmen's compensation measure sent to the governor also would require employers to buy appliances for injured workers and would extend the period for medical care for 30 days.

Victory for Labor  
The occupational disease law would be revised to add beryllium poisoning to the list of compensable ailments and to require the establishment of a medical advisory board.

Organized labor scored a victory in winning approval of the full work

## TRAINS COLLIDE NEAR CAPITAL

Harrisburg, Pa., April 29 (AP)—A Pennsylvania railroad eastbound freight train crashed into the rear of another freight at nearby Heck-

ton today. No one was injured, the railroad said, although the locomotive of the second train overturned and the caboose it struck caught fire.

Nine other cars, four in one train and five in the other, also were damaged in the crash which occurred on the Pennsylvania's Williamsport division six miles north of Harrisburg and a short distance off the railroad's main line to the west.

The blaze in the caboose was extinguished by firemen from nearby communities as wrecking crews were rushed to the scene to clear the two-track line.

In the Middle Ages only kings were permitted to own swans, which were part of the regalia of European courts.

# FORESEE MANY DIFFICULTIES IN RED TALKS

By JOHN M. HIGHTOWER  
Washington, April 29 (AP)—Diplomatic authorities said today that great difficulties lie in the way of full agreement between Russia and the Western powers on the unification and joint control of all Germany.

They took this view despite hope for an early end to the Russian blockade of Berlin.

Official statements, including Secretary Acheson's speech in New York last night, are making it in-

creasingly clear that without basic policy changes by Russia, the East-West split in Germany cannot be closed. So far there is no evidence that such policy changes are in prospect.

**To Be Testing Ground**

The talks held to date by American Ambassador Philip Jessup and Deputy Soviet Foreign Minister Jakob Malik are reported to have dealt only with the problem of lifting the blockade and arranging a meeting of the Council of Foreign Ministers—but not with what the Foreign Ministers might accomplish.

The fact is that Washington officials regard the possible meeting as a testing ground of the ability of Russia and the American-British-French bloc to reach any constructive agreement. Possible abolition of the blockade is anticipated here as a Western victory in a single battle

of a continuing cold war.

**Puts Blame On Russia**

Insofar as, the opportunity for Russia and the Western powers to meet is concerned, the lifting of the blockade would restore the situation to about what it was a year ago before the Soviets sought to isolate Berlin.

At that time the Western powers served notice they would not negotiate so long as the Russians held a pistol to their heads; now the Russians may be ready to lay the pistol down.

Meanwhile a new situation has been created within the Western bloc and Acheson in his speech to the American Newspaper Publishers Association in New York last night blamed this squarely on Russia.

**Report Merger Plan**

He said the Russians had sought economic and political control of

Special music is being arranged for this service.

The weekly rehearsal of the Littlestown Community band and orchestra will be held Monday at 8 p. m., in the Littlestown fire hall.

Time to  
**Spring Clean**  
your Buick too!

Bright sun shining—new greenery showing—soft breezes calling you onto the highway—this is the season that Buick of yours was made for!

This is the time when you'll want to hear the sweet hum of its eager power, feel the lazy comfort of its easy stride, get the springtime feel of its thrilling action.

And you can have all that—with just a little attention to some simple things to shake the winter out of its bones.

For instance—the rusty sludge that has accumulated in your radiator should be cleaned out. Transmission and rear end may be low on lubrication, and should be checked. Crankcase oil should be changed to a summer grade.

The underside of your car has taken a lot of splashing on wet roads. Some of the chassis grease has been washed out, some of it fouled with mud and grit.

So it's time to drain out the dregs of winter. Time for a little of the knowing, loving care every Buick gets at the hands of our Buick-trained men, armed with Buick-developed tools, Buick-established methods, Buick-engineered parts.

It doesn't take long, doesn't cost much. But it goes a long way toward making old Buicks step out again like lively spring colts. How about stopping in—this week—to see about a spring rejuvenation for your faithful Buick?

## Littlestown REV. SMITH IS DINNER SPEAKER

"A sportsman is a person that has respect for the man who follows him; he doesn't take all that he can," the Rev. Nevin E. Smith, pastor of Emmanuel Reformed church, Hanover, told 83 members of the Littlestown Fish and Game Association at their 13th annual banquet Wednesday evening in the social hall of Redeemer's Reformed church. After Rev. Smith's address, two reels of motion pictures were shown by Dewey Furrow. These pictures were shown through the courtesy of the Field and Stream Publishing company. One reel dealt with Canadian smallmouth bass and the other reel with speckled trout. Melvin Wehler was the winner of the drawing for the evening.

The committee that arranged for this banquet in addition to the chairman, consisted of Dr. Richard M. Phreaner, Bernard Dillman, Edward Leister, Harry Strevig, Henry Storm, Harold Sparver, William Wherley, Donald W. Fesser and Kenneth Olinger.

The next meeting will be held Wednesday, May 25, with the place to be announced later. Refreshment committee for the May meeting includes Bernard Selby, Robert Spangler and Wilbur Snyder.
